

OUTLINE FOR DELOITTE | AWE PARTNERSHIP

Dan Kinsella and Tolan Pica

November 6, 2024

AWE INNOVATION TRUSTS DELOITTE

ACCORDIOS Worldwide Enterprises, Inc. (AWE) will soon announce its revolutionary advanced way of super clustering business corporations for commerce, profit, revenue, money, and monetization. While the 'how' is important, the security of such an endeavor is paramount for AWE's vision. Today, the internet is a web of deceit, mis-and disinformation, of which nearly 80% of the worldwide web's current content is considered corrupt.

This is a staggering statistic, considering almost every human on the face of the planet is digitally connected. AWE's exciting new commerce space, connected to, but NOT part of, the internet, will be that safe space for the world to interact. To achieve this lofty goal of safely providing this secure environment, a few fundamental security requirements must be considered - the first of which is a base of operations.

AWE trusts Deloitte with the implementation of our base operations including cyber security and Digital Identity and Identity Access Management (DI/IAM), the keystone security requirement of Oracle's super-database that serves as the environment, connected to, but not part of the internet.

Authenticity of participants as humans (not bots) is central to the trust and integrity of the platform. Protection of personally identifiable information (PII) of every individual that engages the platform is an uncompromising tenant of AWE's promise and vision. The enormity of this challenge is clear and requires a recognizable, trusted, and reliable partner to accomplish this responsibility. **This partner is Deloitte.**

AWE PROPOSAL

AWE invites Deloitte to partner with its new global economy and ecosystem by providing Cyber and Strategic Risk, Accounting and Tax professional services.

We propose that the Deloitte office in Capital District be the launch location to structure our Phase I roll out of signing our distribution partners, all of which will be structured under a Global Asset Index model.

AWE Request:

- AWE DREAMSWON Dedicated Office Space (2-3 offices) to set up the prototype three-dimensional meeting space
- Above space used to host meetings with top executives of top 22 corporations and major investors
- AWE will coordinate all meetings in advance
- Deloitte handles all deposits from investors and strategic investors
- Deloitte works with AWE to provide the planning around Cyber and Strategic Risk headed by Tolan Pica

DELOITTE Receives:

- Monthly Retainer Fees
- Percentage of revenues from Phase I Distribution Partners
- Opportunity to onboard Deloitte global offices
